

ENVIRONMENTAL STATEMENT

Rolled Alloys Singapore, Ltd recognizes its social and corporate responsibility to protect the environment whilst carrying out the full range of its activities. This policy statement demonstrates the desire of our directors and employees to prevent pollution and continuously improve the environmental management of our day to day activities.

Objectives:

- Prevent pollution, reduce waste and to maximize the use of materials and energy.
- The company is committed to comply with applicable legal requirements and other requirements which may affect the company's operations.
- Use sustainable, reusable or recyclable products.
- Ensure that all wastes are identified. Hazardous or contaminated waste shall be identified with its EWC number for transport and disposed of in accordance with statutory duty of care requirement.
- Minimize noise levels, traffic nuisances, emission of pollutants and disturbance to the public and local ecosystems, wildlife habitats and preservation of heritage.
- Review our activities and identify issues which could have a significant impact on the environment.
- Minimize the risk of environmental accidents through the formulation and adoption of appropriate risk management procedures and, in conjunction with the appropriate authorities, to maintain an emergency response capability to deal with accidental pollution.
- Encourage our supply chain to comply with this policy.
- Provide the necessary awareness and training to enable staff at all levels to understand and contribute to the implementation of this policy.
- To achieve continual improvement through its environmental performance by reviewing its targets and objectives by performance indicators during specific management reviews.
- Our policy will be regularly monitored, reviewed and updated at least once per annum to reflect changes in Legislation or in light of any changes in our activities and procedures. Updates will be brought to the attention of our employees.
- The company sets and reviews its performance against its objectives which will be reviewed during periodic review meetings.

The General Manager is responsible for the management of environmental issues and the implementation of this policy and will ensure that appropriate resources are available.

Adherence to the environmental policy is the responsibility of all staff throughout the company.
