

QUALITY SYSTEMS POLICY

Rolled Alloys Singapore Limited is an AS9120-certified distributor of aerospace, oil & gas, desalination, and other industrial quality alloys in all forms and sizes. These specialty metals are used for a wide variety of end-use applications where we provide processing and customized saw cutting services for our customers.

We recognize Quality as an essential element that provides the Company with its continued success within the Aviation, Oil & Gas, Desalination, and other various industries.

It is Rolled Alloys Singapore's Quality Policy to:

- ☞ Provide products and services that consistently meet customer and applicable statutory and regulatory requirements
- ☞ Create an inclusive environment of integrity and high ethics behaviour
- ☞ Establish quality objectives and eliminate risks through continual improvement of our processes
- ☞ Provide necessary resources necessary for the effective implementation of the quality management system
- ☞ Strive to achieve customer satisfaction through product and service excellence
- ☞ Comply with the AS9120 Rev B / ISO 9001:2015 Quality Management Systems and continually improve the effectiveness of the management system.

The Management Representative has the full authority for the administration and management of this quality management system, and has the complete support and commitment of the management and employees of Rolled Alloys Singapore Ltd.
